Directions:

- Take Highway 79 to Pine Hills Road (from this turn it is 20+ minutes to the Preserve)
- Turn right onto Eagle Peak Road
- After a short distance, Eagle Peak Road becomes a County maintained dirt road. It is generally in really good condition. Wet weather can make the road a bit slippery in a couple of spots so please drive carefully.
- Approximately 1/2 mile before the end of the road at the Saddleback Trailhead, you will come to the Preserve. A Preserve Sign is located at the first entrance.
